

Internship Partners

Maastricht School of European Studies

This list provides examples of organizations and companies where students have completed their internships during the final year of the European Studies programme. Students are encouraged to suggest other organizations that align with their career ambitions.

The internship must take place in an international context, which means you have the option to go abroad again. Alternatively, if you prefer to stay in the Netherlands, the host organization must either operate internationally or focus on challenges related to international cooperation.

Country	City	Partner
